**Subject:** Quick Follow-up from this mornings' meeting/call on Dimock

6 of the original 8 homes have been sampled. 1 is scheduled for next week, and 1 needs to get their pump repaired before we can schedule.

So far, no one has denied us sampling their residence. Some haven't called us back yet, but no denials. Again 50 are scheduled and 5 more have said they want sampling and we just have to get it scheduled.

ERT/SERAS contact info will be provided by OSCs to Fort Meade to facilitate sample management.

A list of homes with a key identifying names vs. home well (HW) number we have assigned them to protect privacy will be provided by the OSCs to Ft Meade. As noted the priority for any review of Cabot QA should start with the first 21 covered under the PADEP/Cabot CO&A and then the rest. We will get the first list of 21 names out asap.

Thanks all for the support. dennis.
